## Wednesday Challenge Form

Group Members: Nick, me

Problem Statement: We had a hard time figuring out what we wanted to make.

Approach: we're trying to make a another fidget toy and it has to be less that 50 cents. Our fidget toy is a very small cardboard box that has silly putty inside of it. It's to tap repeatedly if you have too much energy.

Solution: we just need cardboard, glue, and liquid starch.

Lessons Learned: It's not that hard to figure out what we want to build.
