

Date:

Wednesday Challenge Form

Group Members: AJ, Evan, Emily

Problem Statement: we where trying to figure out the leftover pieces of the 5" by 5" sheet of wood

Approach: Evan did most of the work but I was Giving some of the info on what was going on in the other room where I was cutting out the sheets of wood for my skateboard.

Solution: There was 2 ft. of space leftover

Lessons Learned: using info that u know and putting the measurements on paper can be really hard.
