

Date:

Wednesday Challenge Form

Group Members: Hick's huge group

Problem Statement: passing tubes in to person to person with our hand behind our backs

Approach: It was really hard to have everyone catch all the tubes at the same time I don't think everyone was paying attention to there right side to catch the tubes. In that case it got me really triggered.

Solution: we all stopped for a second to think on How to throw and catch the tubes.

Lessons Learned: help each other learn to Succeed at catching the tubes.
